Background

Baufest is an **international** company consisted of **argentine resources** with **over 20 years'** experience. We develop and implement over **1,000** projects for **200** leader companies in **50 countries**, and we count on offices and operations in **Argentina, Mexico, USA and Spain**.

We are esteemed and recognized for our **excellence, integrity, quality** and reaching an average **customer satisfaction** rating of **93%** since 2006. We are the **5th** company with the **highest billing** in software development (IDC), one of the best companies to work for in Argentina since 2008 (The Great Place to Work, Argentina) and we have been honored with the **Sadosky Award 2001** for the Business Development category.

For the past 15 years, we develop and implement critical technological solutions for the Platform of Commercial Branches, Telemarketing and Customer Service, Phone Banking, Multichannel, Loans, Titles, Capital Markets and Decision Support, among others.

Our experience as software engineering specialists has made us referents for the implementation of processes, practices, methodologies and tools for the entire applications life cycle. Adding to this, our growing participation in the financial industry and in the coming regulations and policy framework, which are becoming more demanding (**BCRA, Sarbanes-Oxley**), have allowed us to develop a solid experience in the projects' implementation that satisfy the compliance needs for the multiple regulatory standards that are valid today.

We are official certified partners of **Microsoft, Oracle, SAP, IBM, Red Hat, DEXA, CA and NINTEX**. We usually participate in joint projects as specialists in its platforms and tools, by developing, implementing and integrating custom made software solutions for industries.
